

# FAST FABRIC ADHESIVES

## Save time and get the job done right

Specifically engineered for awning fabrics, these premium-quality adhesives bond common awning materials, such as laminated vinyl and canvas, with bond strengths comparable to sewing or welding, yet they're faster and easier to use. They allow precise installation of rafter bands and reinforcements, so they're great for installations and onsite repairs. Fast Fabric Adhesives are available only through Trivantage®.

- Specially designed applicators for ease of use
- Reusable cartridges minimize waste
- Unopened cartridges and bottles have a one-year shelf life
- Liquid RF Vinyl Weld available in 450ml squeeze bottles and 300ml cartridges
- Canvas Epoxy available in 50ml and 400ml cartridges
